Specifications

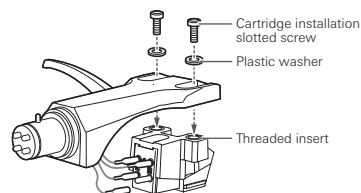

Material	: Aluminum
Weight	: Approx. 9 g (0.32 oz) (including lead wire)
Accessories	: Cartridge installation slotted screw (10.0 mm × 2 and 8.0 mm × 2), Nut x 2, Plastic washer x 2

Specifications are subject to change without notice due to improvements.

How to install

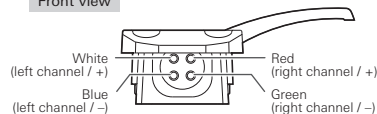

1. Mount a cartridge onto the headshell using the cartridge installation slotted screw and plastic washer provided, and tighten lightly so that cartridge position can be adjusted.
 - Take care that the screws are short enough so as not to touch and damage the record.
 - When using a cartridge without threaded inserts, use screws and nuts to install the cartridge.
 - Read the user manual of the cartridge.

2. Slide the lead tips over the cartridge connections.
 - Do not apply heat.
 - Use tweezers, small pliers, and non-magnetic screwdriver(s) to mount the headshell/cartridge.
 - If a lead tip is loose, flatten it out slightly to attach it.

3. Loosen screws with a non-magnetic screwdriver and adjust for overhang. Tighten the screws firmly when position is fixed.

Overhang adjustment

If you are unsure about the overhang adjustment, align the stylus tip with the stylus on the cartridge that originally came with the turntable (see figure below).

4. Attach the headshell to the tonearm.

5. Refer to the turntable's user manual and adjust the tonearm balance, tracking force and anti-skate.
